YILTEX

ABOUT US

Our company YILTEX GROUB started its journey in the sector in 1963 with custom-made suits and in 2024, in 6000 m2 closed and 20.000 m2 open area in CORUM province in TÜRKİYE, 300 people are engaged in production and professional production in 5 different product groups. In the textile sector, military and police uniforms and work clothes, as well as ballistic vests, ballistic helmets and soft panels are produced in our facilities, as well as taktical military and police gloves and accessories. In our group company YILTEX SKY, we started the production of personnel and cargo parachutes and we offer them to the world markets as the first production factory established in TÜRKİYE. Our company is a member of PIA international parachute manufacturers association. All production materials are used raw materials that have completed PIA memberships and quality certifications. We exhibit our products in internationally recognized defense industry fairs to be presented to the world markets and we are ready to meet our valued customers.

YVA01

The Tactical Bulletproof Vest comes standard with NIJ Certified Level IIIA / Level IV ballistics. The integrated front and rear pockets allow the wearer to add rifle rated plates to the system for additional protection. Molle webbing on the front and back provide the operator with limitless loadout customization.

Features & Specifications

- NIJ Certified Level IIIA ballistics / Level IV Fabric Cordura 500 DN/1000 DN
- Elastic stretch side closure and adjustable shoulder straps
- Adjustable internal cummerbund for flexibility
- Heavy-duty, reinforced “man down” strap
- Maximum MOLLE Webbing for a wide range of equipment carriage
- Conveniently sized in standard t-shirt sizes
- Removeable front & back patches

CORDURA FABRIC
500 DN / 1000 DN

YVA02

The Tactical Full Body Armor Teams Vest was designed to meet the specific high-threat needs of elite SRT and SWAT teams. Highly configurable, the Tactical Full Body Armor Teams Vest offers variable coverage with state of the art Level IIIA / Level IV soft armor built into almost every part of the vest. While the abdomen of the vest comes armored with level IIIA / Level IV ballistics, the groin, neck, and shoulders can also be armored for additional protection. Many areas can even be up-armored with rifle rated plates for extra stopping power and personal protection.

Features & Specifications

- ☑ NIJ Certified Level IIIA / Level IV ballistics
- ☑ Adjustable cummerbund featuring ample molle webbing to carry gear
- ☑ Adjustable internal cummerbund for a snug and stable fit
- ☑ Heavy-duty, reinforced "man down" strap
- ☑ Rugged 500 DN / 1000 DN

CORDURA FABRIC
500 DN / 1000 DN

YVA03

Its fabric is Cordura 500 DN/1000 DN. It is a plate & load carrier body armor system. It provides front and rear protection through inserted hard ballistic plates. The upper material is a highly durable CORDURA, available in different colors or camouflage. Optimal body heat management through highly breathable spacer fabric on the inner side. Easy adjustable to the body through Velcro straps and buckle fastening. Full MOLLE/PAL system for attachment of different pouches at front, back, and side. Available all sizes including unisize.

CORDURA FABRIC
500 DN / 1000 DN

**YILTEX
ARMOR**

YVA04

Its model is Tactical Combat Vest. The fabric is original Cordura with 500 DN / 1000 DN. It is sewed with a mole system. It has three bullet pockets. There is a medical bag, a flask container on the right, a grenade on the left, and adjustment buckles on the right and left. There is Level IIIA or Level IV ballistics in its soft panel. The soft panel is one on the front and one on the back. It can be made in different colors. Green, black, blue, beige, camouflage, and multicam colors are available. Any desired logo can be added.

CORDURA FABRIC
500 DN / 1000 DN

YVA05

YILTEX Underwear Vest Level IIIA soft armor is designed to fit the female officer. The shape of the panel contours to the female officer's body to provide a comfortable fit. YILTEX Underwear Vest is the female counterpart of the model and is only available as a front panel in the concealable cut.

- ☒ Protection: Level IIIA stands alone against handgun rounds
- ☒ NIJ Standard 0101.06 CERTIFIED: This product is NIJ 0101.06 compliant and can be found on the NIJ's CPL (Compliant Product List)
- ☒ Female structured panel design, panel is cut to allow forming / adjustment with bust and is extremely lightweight
- ☒ Panel Type: Concealable (female) front panel only - must be paired with male / neutral back panel (recommended to be worn with the model)
- ☒ Body side panel padding for female operator comfort
- ☒ Compatible with Trooper Concealable Carrier
- ☒ Areal density: 0.86 psf (4.198 kg/m²)
- ☒ Thinness: 0.25" or 6.35 mm

YGB01

More than being essential, a good pair of gloves grip without worry, protect without second thought, and hold up to the abuse of repeated visits to the apiary. That is exactly what the deluxe-non-ventilated leather beekeeping gloves do!

Sizes:

XSmall, Small, Medium, Large, XLarge, and XXLarge.

YGB02

A good pair of quality gloves is an essential for every beekeeping toolkit. Whether your hive gets too "hot" or you're just trying to keep a grip on heavy supers, these ventilated leather beekeeping gloves will keep you cool and protected.

The ventilation panel is a great feature, as it allows air to pass over the forearm, but doesn't allow bees into the glove.

On hot days it is very helpful. Beekeeping gloves wear the most at the web between the thumb and forefinger and around the ventilation panel so we've added an extra panel to give extra durability.

Sizes:

XXSmall, XSmall, Small, Medium, Large, XLarge and XXLarge

YGB03

Fulfill your children's wonder by showing them around the bee yard while adding some quality time and teaching moments to boot. Protect those little handles with our children's leather beekeeping gloves.

Dimensions:

The palm of hand approximately 3.5" across
Thumb approximately 3" long

YILTEX GLOVES – WORKING GLOVES

3K and 1K protective gloves offer effective protection against laser scatter radiation from laser welding equipment.

The welding gloves comply with the standards EN 388:2016+A1 and EN 12477:2001+A1:2005.

Thanks to the first-class material properties, the gloves have a good feel and are comfortable to wear thanks to the optimum fit.

Despite its enormous stability, the robust fabric is skin-friendly and breathable. The high-quality workmanship makes the gloves easy to care for and machine washable.

■ YGA03

This gauntlet length unlined glove made from durable yet soft and supple MTP camouflage leather with a padded knuckle patch.

This gauntlet length glove is made from durable yet soft and supple camouflage leather with a multi terrain pattern (MTP).

The pattern is incorporated into the grain structure of the leather providing longer lasting aesthetic characteristics, whilst still ensuring that all the benefit associated with water repellency remain. The glove is worn by service personnel in warm weather zones where metal surfaces become hot when exposed to direct sunlight. It provides adequate protection against incidental burns whilst still allowing the required tactility and dexterity for operational use.

It has a padded section across the back of the knuckles and a nylon adjustable strap across the back of the wrist.

YBA02

18"H x 16"W x 10"D Volume: 33L

Description:

The YILTEX Urban Go Pack is designed with practicality in mind. With enough small pockets to fit everything without having to dig through a massive main compartment, but not so many that they are too small to carry the necessary gear. This everyday assault pack is for anyone, from students and outdoor enthusiasts to military professionals.

Features:

- Padded laptop sleeve with zipper closure, sizes up to 15"
- Top front compartment with organizer panel
- Quick-access gadget pocket
- Main compartment with document sleeve, and mesh pocket
- Bottom front compartment with mesh pockets
- Two side pockets
- Grommets on all compartments for drainage

YBA03

22"H x 17"W x 11"D Volume: 50L

Description:

The YILTEX 3 Day Assault Pack is the most popular pack in our line. Appreciated by operators, outdoors enthusiasts, and everyday users, it has proven itself time and time again in any situation. Its large cargo space, organization features, and utility make it the best choice in large packs.

Features:

- Body contour shoulder straps with D-Ring for attachment
- Two double zipper pulls on the main compartment
- Individual foam pad back panel for extra comfort
- Heavy-duty carry and drag handle.

YBA04

18"H x 9"W x 9"D Volume: 24L

Description:

The YILTEX Compact Assault Pack has multiple compartments to provide storage for just about anything you'll want to carry, including compact laptops, tablets, or other tech gear. A built-in hydration pocket will house a 3.0L water bladder, and with its padded back and spacer mesh, you will find the Compact Assault Pack to be a comfortable fit during long treks or patrols.

Features:

- Large compartment space for storing equipment

YBA05

12"H x 7"W x 1.5"D

Description:

The YILTEX Tidepool's compact size is designed to go on your plate carrier without the over hang on the bottom, eliminating any uncomfortable shifting of your armor and providing a lower profile functional hydration carrier. Perfect for any vehicle driver and operators who prefer a more compact setup.

Features:

- ☒ Clam shell design for easy access
- ☒ Exterior pocket with zipper closure
- ☒ Loop panel for morale or ID patches
- ☒ Removable shoulder and sternum straps
- ☒ 1.5L (50 oz) bladder included EXCEPT SCORPION color

YBA06

Description:

The YILTEX Sniper Drag Bag is the solution for snipers who have to carry and prepare a variety of gear for their missions. Equipped with storage pockets inside and outside, the Sniper Drag Bag is ready to carry mats, veils, magazines, cleaning kits, and documents to the field and back.

Features:

- ☒ Four interior weapon-securing quick-release straps
- ☒ Three exterior storage pouches
- ☒ One interior accessory pouch
- ☒ Removable padded center divider
- ☒ Detachable shoulder straps with sternum straps

About

Our company YILTEX SKY PARACHUTE SYSTEMS INC. has been established as a joint venture between two companies, with a 50% legal partnership with INTERNATIONAL EXPERIENCED COMPANY. Our Indonesian partner's facility, including a parachute fabric production with 300 employees, is a fully integrated parachute textile sewing factory. In TÜRKİYE's ÇORUM city, in the industrial zone, a 5,000 square meter parachute production line is being established. Our passion for parachutes, starting with more than 30 years of experience in the sector, is conducted at international standards with all quality certification. With the merger of partnership, we have started our highest quality productions in TÜRKİYE.

We offer the freedom of the sky for you!

We offer the freedom of the sky for you! As YILTEX SKY, as a team specialized in parachute production, we produce reliable and high-quality parachutes for your exciting adventures.

YILTEX SKY is a leading company in parachute production with over 30 years of experience. Our products are meticulously crafted with expertise accumulated over the years.

Production Processes

The production of our parachutes is based on state-of-the-art machines and high-quality lines. We attach great importance to the quality control of its permanence. We aim for perfection at every stage, from fabric selection to sewing processes and final product tests.

Fine Details in Production

YILTEX SKY is committed to the latest technology and innovation in the parachute industry. Our products are designed for aerodynamic excellence and performance. The use of advanced technology and materials offers you an extraordinary flying experience.

CEO Mesaj

We are the only private manufacturing company established in TÜRKİYE, and we have combined our textile experience with our Indonesian partner. We manufacture under the AS9100 international certification program. Our productions are members of the PIA (Parachute Industry Association) in the USA. We produce under the control of our partner's production engineers within our organization. Our team, ready to serve parachute enthusiasts, is here for you.
